lives by the code of his ancestors.

He is certain, smart & tough. He is the original man of the North. He is in constant pursuit of happiness. Ambitious, he fails often, but he attempts more and achieves more. He focuses on one thing, completes it and move on to the next quest. He is tenacious and daring with a great sense of humor. He never gives up, having his moral compass as a guideline, he knows exactly what to do, where to go and who to be.

Welcome to a new era of power and style, where time is not an issue.

No matter where and who you are, in a classroom or a dance floor, a teacher or a snowboarder, a builder or a banker... your life is about rising above the challenges and winning the day.

OUR STORY

The story is simple.

In 2015 two friends Paul and Alex, with a long tradition in the watch world, set out to revolutionize the industry.

The vision was to embrace the latest technological and mechanical developments, with true dedication to detail and designing technique, while remaining accessible to everyone.

Staying true to their traditional ideals, their design inspiration revolves around the belief that even **modern times demand timeless standards**

- loyalty, ambition, boldness.

Stimulated by the values of true men, they wanted to merge the classic and the contemporary, the simple and the exciting.

The new adventure had started shaping in their minds.

They teamed up with a multi - award winning designer that shared the same passion and imagination. Ken, became an inseparable member of the team and the three of them spent months working on the details, the materials, the designs, and shipped watches back and forth across the globe.

In 2017 "THORTON" was born.

During its short course THORTON became an instant thrill with a lot of supporters. More than 10 countries have stocked THORTON products and more are on the way to become part of THORTON WORLD.
